

thank you black women

MAY 2, 2024

Enlightened Solutions wants to extend our gratitude and appreciation for your unwavering support of Project Noir 2024!

As our banner research, Enlightened Solutions remains committed to surveying and researching the real-life healthcare, workplace, and educational experiences of Black Women in Cleveland and throughout Northeast Ohio. *Your participation and advocacy are critical as we strive to understand and address gender and racialized barriers hindering Black Women in our region.*

We are thrilled to share that Enlightened Solutions achieved a remarkable milestone by nearly *tripling* our response rate compared to Project Noir 2020. This achievement underscores the impact of your efforts in elevating the voices and experiences of Black Women within our community.

Looking ahead, Enlightened Solutions is entering Phase Two of Project Noir 2024 - our team will be synthesizing statistics, identifying narrative thematic elements, and designing community events.

We invite you to stay engaged with us on social media and at upcoming events! Your continued engagement and support will be invaluable as we work towards these goals.

From the bottom of our hearts, thank you Black Women!

Chinenge Nkemere and Bethany Studenic
